

# Manhasset Bay Shipyard Spring Work Request Form

Name: \_\_\_\_\_

Anticipated Launch Date: \_\_\_\_\_

Boat: \_\_\_\_\_

Launching is scheduled on a first come-first served basis and is subject to weather and tidal considerations.

It is time to start the prep for the spring! There are any number of jobs that can be done by the yard over the remaining winter months that will speed up your prep work in the spring.

The one job that requires a lot of time is sanding the bottom of the boat. We REALLY want to do this when it is cold out as the sanding is easier, and WE DON'T have the time in May. Owners requesting bottom sanding after April 15 can anticipate a delayed launching. See rates below.

Anything that is on the inside that needs repairing; pumps, lights, electronics, cushion repair and even cleaning can be done early.

Please mark how you want your bottom taken care of, add any other jobs you may need taken care of, i.e. hull waxing. Please return to us soon or email us with your work orders at mbshipyard@AOL.com no later than February 22, 2019

! Bottom Prep and painting; complete sanding with light fairing with the painting labor.

! Just paint no sanding: \$90.00/ hour to tape and paint.

**Check box to right to request work on box below.**

Bottom Prep & Painting Rates

\_\_\_\_\_  
Other: Please Specify

P.S. – If you are planning on having an outside contractor work on your boat please have them register with the office and supply a copy of their liability insurance. The yard charges a 20% override on outside contractor labor.

You have invested a lot in your boat. Spring is the time to wax the hull to protect your investment and stand out from the fleet. Call the office for pricing.
